List of *Phylloscopus* Warblers with References

Compiled by Joe Hobbs

Introduction

I have endeavoured to keep typos, errors, omissions etc in this list to a minimum, however when you find more I would be grateful if you could mail the details during 2016 & 2017 to: josephobbs@gmail.com.

Please note that this and other Reference Lists I have compiled are **not exhaustive** and are best employed in conjunction with other sources.

Grateful thanks to Dick Coombes for the cover images. All images © the photographer.

Index

The general order of species follows the International Ornithologists' Union World Bird List (**Gill, F. & Donsker, D.** (eds.) 2016. IOC World Bird List. Available from: <http://www.worldbirdnames.org/> [version 6.2 accessed April 2016]).

Note: Ongoing research in to the Phylloscopidae may reveal new data that will affect the species list order or even result in the some of the *Phylloscopus* warblers in this Reference List being reassigned to *Seicercus* and vice versa.

Yellow-throated Woodland Warbler

- Phylloscopus ruficapilla*** [Sundevall 1850, Durban, South Africa].
 [*P.r. ruficapilla*] E Northern Province S to KwaZulu-Natal (E South Africa), W Swaziland & E Lesotho.
 [*P.r. ochrogularis*] Mahari Mts. (W Tanzania).
 [*P.r. minullus*] Taita Hills (SE Kenya) and E & NE Tanzania.
 [*P.r. johnstonei*] S Tanzania & Malawi S to NE Zambia & NW Mozambique.
 [*P.r. quelimanensis*] Mt. Namule (N Mozambique).
 [*P.r. alacris*] Manica e Sofala (Mozambique).
 [*P.r. voelckeri*] S Western Cape E to E Eastern Cape (South Africa).
 Treated by some as *Seicercus ruficapillus*.
 Other names: African Yellow-throated Warbler, Yellow-throated Wood Warbler.

Laura's Woodland Warbler

- Phylloscopus laurae*** [Boulton 1931, Mount Moco at 6,600ft, Benguela, Angola].
 [*P.l. laurae*] Mt. Moco (W Angola).
 [*P.l. eustacei*] SE DR Congo, N & NW Zambia & extreme SW Tanzania.
 Other name: Mrs Boulton's Woodland Warbler.
 Treated by some as *Seicercus laurae*.
Laura Boulton (1889-1980), collected the type specimen of this species in Angola. She was the wife of the American ornithologist Wilfrid Rudyerd Boulton (1901-1983), who wrote the first description of this species and named it after her.

Red-faced Woodland Warbler

Phylloscopus laetus [Sharpe 1902, Ruwenzori Mountains, W Uganda].
 [*P.l. laetus*] Ruwenzori Mts (E DR Congo), SW Uganda, W Rwanda & W Burundi.
 [*P.l. schoutedeni*] Mt. Kabobo (E DR Congo).
 Other names: Rusty-faced Warbler, Red-faced Leaf-warbler.
 Treated by some as *Seicercus laetus*.

Iberian Chiffchaff

Phylloscopus ibericus [Ticehurst 1937, Paul d'Argila, near Coimbra, Portugal].

SW France, NW, C & S Spain & Portugal and discontinuously in N Morocco, N Algeria & NW Tunisia. Winters NW Africa and Senegal E to S Mali, Burkina Faso & N Ghana.

Species originally designated as *Phylloscopus brehmii*. That was subsequently shown to be a synonym for *P. collybita*. The type specimen was collected in Portugal and assigned to *P. ibericus*, which therefore takes precedence.

The proposed form *biscayensis* is included with *P.i. ibericus*.

Canary Islands Chiffchaff

Phylloscopus canariensis [Hartwig 1886, Tenerife, Canary Islands].

[*P.c. canariensis*] La Palma, Hierro, Gomera, Tenerife & Gran Canaria (Canary Islands).

[*P.c. exsul*] (if extant) Lanzarote (Canary Islands). It is also possible this form was found on Fuerteventura, however no specimens are known to exist. This race has not been definitely recorded since a number of specimens were collected at the beginning of the 20th century in the valleys of Haría on Lanzarote and is more than likely extinct. The cause of extinction is not known but destruction of habitat is likely to have contributed to its demise.

Other names: Western Canary Island(s) Chiffchaff (*canariensis*), Eastern Canary Island(s) Chiffchaff (*exsul*).

Pallas's Leaf Warbler

Phylloscopus proregulus [Pallas 1811, Ingoda River, S Transbaikalia, Russia].

Altai Mts E to N Sea of Okhotsk and S to N Mongolia, N Heilongjiang, E Jilin (NE China) & Sakhalin Island and possibly N Korea. Winters SE China, N Thailand & N Indochina.

Previously treated as polytypic with forms *chloronotus*, *simlaensis* and *kansuensis* that are now considered separately.

Peter Simon Pallas (1741-1811), German zoologist who worked in Russia and one of the greatest 18th century naturalists. In addition to various bird species his name is commemorated in the vernacular and scientific names of mammals and fish as well as a city in Russia, street names and an asteroid.

1st WP record: 6th October 1845. Helgoland, Pinneberg, Schleswig-Holstein, Germany. Killed by a fowler with a stone. The wing only was presented to the German ornithologist Heinrich Gatke, who finally established the correct ID in 1879 (Portofée & Dierschke 1999).

Arctic Warblers

Arctic Warbler

Phylloscopus borealis [J.H. Blasius 1858, north coast of Sea of Okhotsk, Russia].

N & E Fennoscandia & N Russia E thru N Siberia to R Kolyma and S to Lake Baikal, Mongolia and N & E Manchuria and W Alaska. Winters probably S Myanmar E to Vietnam, Fujian, N Guangdong (SE China) and Taiwan S to Sunda and Philippines & Indonesia E to Lesser Sunda.

The proposed forms *kennicotti*, *talovka*, *transbaicalicus* and *hylebata* are included with *P. borealis*.

Other names: Eversmann's Warbler, Kennicott's Willow Warbler (*kennicotti*).

Eduard Aleksandrovich Eversmann (1794-1860), Russian entomologist and Professor of Zoology.

Robert Kennicott (1835-1866), American naturalist who travelled in Alaska.

Kamchatka Leaf Warbler

Phylloscopus examinandus [Stressmann 1913].

S Kamchatka, Sakhalin Island, Hokkaido & Kuril Islands. Winters uncertain, possibly Indonesia.

Japanese Leaf Warbler

Phylloscopus xanthodryas [Swinhoe 1863].

Honshu, Shikoku & Kyushu (Japan). Winters uncertain.

Other names: Pacific Warbler.
